

Alisa Lukash
Rystad Energy

Alisa is a Senior Analyst on Rystad Energy's shale research team responsible for the financial analysis of US shale E&Ps, asset sale modeling, and company research. Alisa is leading Rystad Energy's buy side service research focusing on the US crude E&Ps and is the product manager of Shale Upstream Analytics. Prior to joining Rystad Energy, she worked as a market data consultant covering the global investment banks in London. She holds an M.S. in Finance from Hult International Business School in London, and a B.A. in International Economics from Taras Shevchenko National University in Kiev.
